

HAND SIGNALS

For Guiding Heavy Equipment Operators

Signaller/Spotter Tips

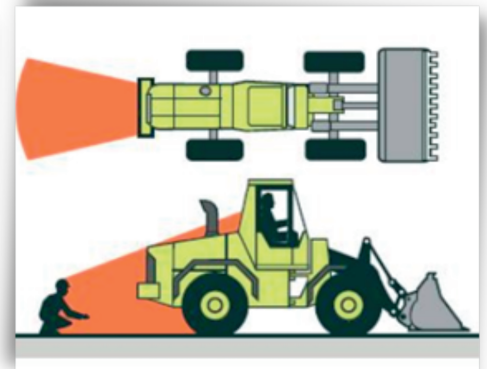

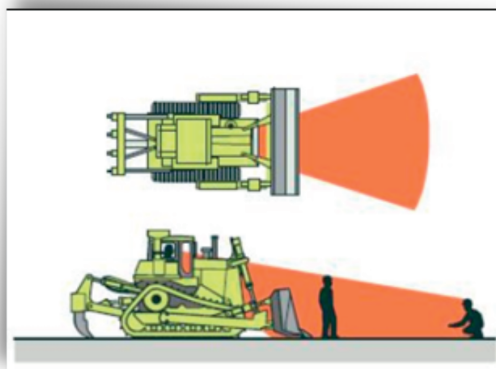

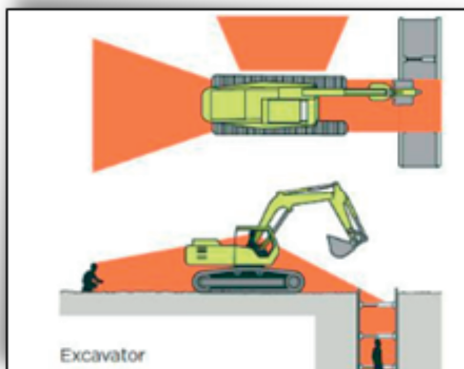

- Stand in full view of the operator
- Communicate with the operator using mutually agreed upon signals
- Have a full view of the intended path of travel
- Keep clear of the intended path of travel
- Wear high visibility clothing

Operator Tips

- Ensure horns, mirrors, alarms, lights, and other safety equipment is functioning properly
- Stop equipment when a signaller/spotter, worker or anyone else disappears from view
- Always obey the signals

Operators **MUST** use signals when vision is obstructed

Legislated Requirements

Occupational Health and Safety Act , General Regulations, Section 33.8 (1)(2)

January 2023
